

(vi) One state with 81-100% of urban population.

(B) Answer the following questions on the basis of the map given. (Any four)

(4)

- i. What does the above map indicate?
- ii. How many time zones are shown in the map?
- iii. Which part of Brazil is ahead of others?
- iv. What does the dark line in the map show?
- v. In which direction does Ponto De Seixas lie?

Q.5 Give geographical reasons. (Any two)

(6)

- 1) The waterways are not developed in Brazil.
- 2) India's population density is high.
- 3) India has deciduous forests.
- 4) There are no West flowing rivers in Brazil.

Q.6 (A) Draw a graph / Answer the help of the given statistical information.

(6)

With the help of given statistical data prepare a simple bar graph and answer the following questions.

India – Trend of Urbanisation (1961 – 2011)

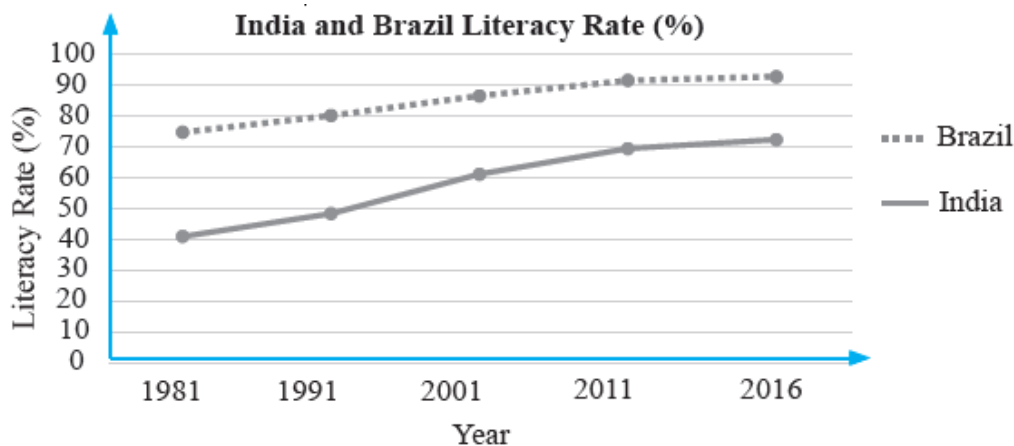

Year	Percentage of Urban Population
1961	18.0
1971	18.2
1981	23.3
1991	25.7
2001	27.8
2011	31.2

India – Trend of Urbanisation (1961 – 2011)

- What is the interval of the data?
- In which year 18% urbanization is found?
- Urbanization has increased by how many percent from 2001 to 2011?

OR

(B) Answer the following by reading the graph/diagram.

- What was the literacy rate in Brazil in 2001?
- In which decade did the literacy rate increase the most in India?
- What is the difference between the literacy rates of India and Brazil in 1991?
- By how much has the literacy rate increased in India between 1981-2016?
- How much is the interval generally used in the graph?
- What conclusions can you draw from the graph regarding the literacy rates of India and Brazil?

Q.7 Answer the following in detail. (Any two)

(8)

- If you are a part of the field visit, what preparations would you make?
- Why does the deciduous type of vegetation occupy most of India?
- Explain the origin of South-west monsoon winds.
- What problems did Brazil and India face after independence?
